At Port Chester Nursing and Rehabilitation Centre, we provide quality short term rehabilitation, subacute care, wound care and skilled nursing services in an intimate, home-like and newly renovated setting. As a premier provider of outstanding medical, nursing and rehabilitative services, we are proud to be rated **5-Stars** from the U.S. Department of Health & Human Services Centers for Medicare & Medicaid Services (CMS).

Our staff is comprised of professionals who bring a unique blend of experience, expertise, dedication and compassion to every patient who enters our facility. With admissions available 7 days a week, social workers and admission staff work closely with families and patients to create a smooth transition during the rehab process.

Maximizing Independence and Recovery

The comprehensive rehabilitation program at Port Chester Nursing and Rehabilitation Centre assists patients recovering from an illness, injury or surgery by providing state-of-the-art physical, occupational and speech therapy. Our interdisciplinary team includes physicians, nurses, therapists, social workers, therapeutic recreation specialists, dietitians and other caring health care professionals.

Our Wound Care program offers an advanced clinical approach to treatment, including the use of IV antibiotics, infection control techniques, specialized air mattresses, equipment and devices.

Pre-Booking Orthopedic Rehabilitation Program

We offer pre-booked reservations for scheduled orthopedic rehabilitation following elective surgery in order to provide the patient with peace of mind knowing that a rehab plan is in place prior to surgery. Patients are admitted directly from the hospital for post-operative rehab and immediately begin to regain strength, mobility and independence in order to prepare for a successful return to their own home. While at Port Chester Nursing and Rehabilitation Centre, patients enjoy private and semi-private suites with flat screen televisions and complimentary cable TV.

Leading the Way in Rehabilitation

We have recently affiliated with Kessler.Core, the nationally-renowned provider of on-site rehab services. Our intensive rehab program provides an integrated therapeutic approach to patient care, including evidenced-based treatment supported by clinical research and proven outcomes to promote the highest level of functioning.

Healing the Body, Mind and Soul

Port Chester Nursing and Rehabilitation Centre offers a beautifully landscaped patio and garden, along with an internet café (with free WiFi) and a coffee bar and café. Innovative and creative therapeutic recreation activities include music and art programs, yoga, cooking classes and salon services. Our classically-trained Chef prepares healthy and nutritious meals daily, served restaurant-style in our spacious dining room.
